

September 15, 2010

Dear Supplier Partner,

Electronic Data Interchange (EDI) has proven to be one of the outstanding drivers in retail information technology systems resulting in *time and cost savings* for both retailers and suppliers.

With these technologies and guidelines, Pep Boys can expedite merchandise flow to the selling floor, manage inventory better and process payments efficiently. Pep Boys has continued to move forward with our EDI initiative for all supplier partners. In order to better support this initiative we have enlisted the services of GXS to assist in the process of conducting EDI testing and certification.

If you are currently EDI capable, please fill out the attached EDI requirements signoff and return to suppliercompliance@pepboys.com within 15 days of receipt of this letter. Upon receipt of your EDI profile, you will receive an email from compliancelink@gxs.com inviting you to begin testing in the Compliance Link application. The email invitation will contain your username and instructions for beginning this process. Please respond to that email invitation as quickly as possible.

If you are not currently EDI capable, and need assistance, please review the list of third party solution providers posted.

Once you have established your ability to meet the requirements, please fill out the attached EDI requirements signoff and return to suppliercompliance@pepboys.com.

For a full review of our EDI, requirements and standards please reference our website at <http://info.pepboys.com/>.

Best regards,

*Diane Pizzarelli
Manager, Supplier Relations/EDI
